When are the 2009 Energy Call JRPs likely to commence?

We envisage that all JRPs will commence in 2010. April 2010 at the very earliest and more probably around the middle of the year.

My energy related topic is not specifically mentioned in the EMRP Outline 2008. Is this idea still eligible?

Yes. The [2009 Call scope](#) states “The Call is open to potential metrology research topics related to all sources of energy, traditional as well as novel types of sources and technologies with longer-term potential. The whole energy chain comprising generation, conversion, transport, storage, and consumption of energy is included”. Ideas fitting this are within scope even if it is not specifically mentioned in the [EMRP Outline 2008](#).

Getting help

Who is my national EMRP Committee Member?

The national EMRP Committee Members are available from the EURAMET Website:

<http://www.euramet.org/index.php?id=emrp-committee>

How can I get further help?

Contact the EMRP Helpline by e-mail at emrpA169@npl.co.uk or by phone on +44 20 8943 6666.

We recommend e-mail for most communications.

Alternatively, contact your national EMRP Committee Member (see ‘Who is my national EMRP Committee Member’ **Error! Reference source not found.**).
